and the sites as mentioned in the appendix accompanying this certificate

has been found to conform to the Energy Management System standard:
ISO 50001:2018

This certificate is valid for the following scope:

Energy management of manufacturing of die-cast and row extruded aluminum radiators by melting, high pressure die-casting, machining, painting, packaging and shipping. Energy management of manufacturing of aluminum special alloys . Energy management of manufacturing of automotive parts by melting, high pressure die-casting, heat treatment and machining. Energy management of manufacturing of boilers, gas-fired convection heaters, electric radiators by assembly and testing.

**Production and self-consumption of electricity through photovoltaic systems.
(Technical Area: Industry Light to Medium)**

Place and date:
Vimercate (MB), 03 April 2023
